	EURO	42.58%	42.72%	
	other currencies	11.21%	9.92%	

GDP: for 2010 RON 513.641 mln and for 2011 RON 542.035 mln

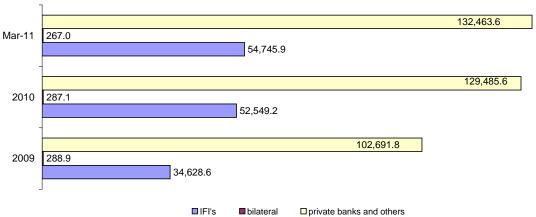

#### Government public debt by type of holders at the end of March 2011

# Government public debt by currencies at the end of March 2011

### Government public debt by type of holders at the end of March 2011 (Ron mln.)

 $<sup>^{\</sup>star}$  including the state and local authorities guaranteed debt according to EOG 64/2007

<sup>\*\*</sup> revisable data

<sup>\*)</sup> loans from the availabilities of the Treasury General Accounts

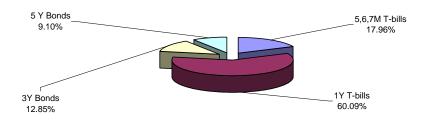

## B. New government loans between 1 January - 31 March 2011

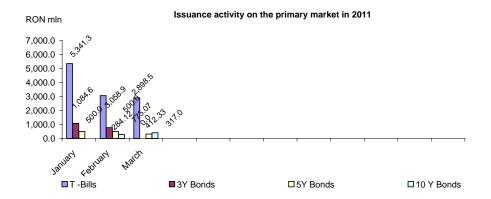

RON mln

The structure of loans contracted between 1 January 2011 - 31 March 2011		
government securities issued on domestic market	15,171.9	
cash management instruments*	0.0	
state loans, out of which:	509.2	
- contracted directly	0.0	
- state guaranteed	509.2	
TOTAL	15,681.0	

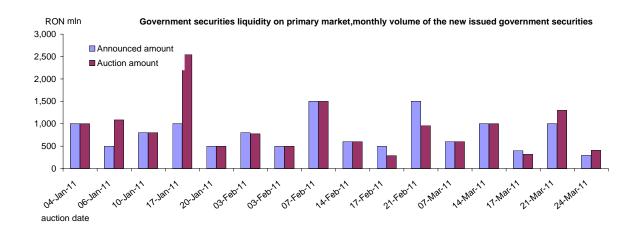

<sup>\*)</sup> cash management instruments contracted on short term, in March 2011

## Government securities by initial maturity issued between 1 January - 31 March 2011

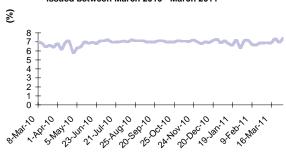

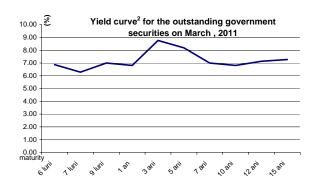

### C. Primary and secondary market

# The annualised yield curve <sup>1</sup> for the government securities issued between March 2010 - March 2011

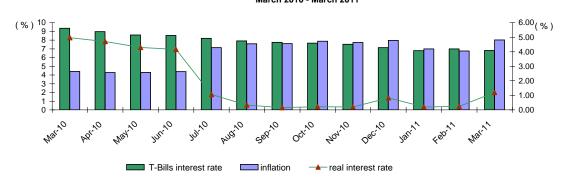

1.the Yield (nominal interest rate) is annualised based on the maturity for the government securities. Otherwise, if the government securities have 3M maturity, it is used the formula: Y=[(1+y/400)^4-1]\*100, where y is the yield

2.the yield curve is calculated based on the average yields for the outstanding governmnet securities

#### Inflation and interest rates for 12M T-bills for March 2010 - March 2011

Note: The monthly real interest rate is calculated as the difference between 12 M T-bills interest rate and inflation rate.

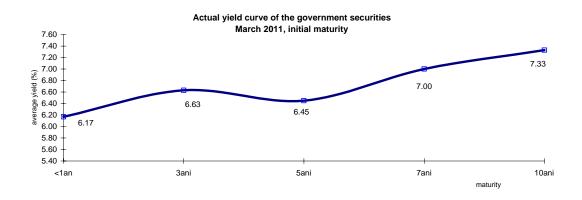

# Remaining maturity of the government securities \*

	31-Dec-10	%	31-Mar-11	% în total
Total amount	66,290.0	100.00%	71,667	100.00%
out of wich:				
short term (<1an)	35,421.0	53.43%	39,476	55.08%
medium term (1-5 Y)	28,142.0	42.45%	28,768	40.14%
long term (>5ani)	2,727.0	4.11%	3,423	4.78%

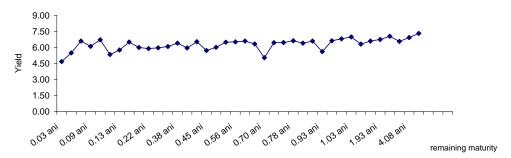

\* does not include eurobonds

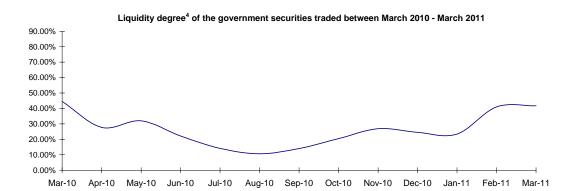

Weighted average value of the remaining maturity for T-bills and bonds is at the end of March 2011: 1,5 years

# II. Secondary market
