Strong Macroeconomic Framework

- After joining the EU, real convergence expressed in GDP per capita in PPS significantly improved from 39.6% in 2006 to 76.0 %⁽¹⁾ in 2022 of EU average.
- In 2022 the GDP registered an increase of 4.1% compared to 2021⁽²⁾, due to the increase of gross fixed capital formation by 5.9% and the robust growth of private consumption by 5.8%.
- In 2023 the GDP registered an increase of 2% compared to the same period of 2022⁽³⁾.

Well Capitalized and Liquid Banking Sector

- NPL ratio⁽⁴⁾ showed a sustained downward trend (3.8% at the end of 2020, 3.4% at the end of 2021, 2.7% at the end of 2022 and 2.42% in November 2023).
- To date, the Romanian government has not used public money to support local banks and their recapitalisation has been entirely a responsibility of the shareholders.
- Very well capitalized banking sector, with a total capital adequacy ratio of 25.1%⁽⁵⁾ as of December 2020, 23.3% as of December 2021, 23.4% as of December 2022 and 22.3% in September 2023.
- Relatively stable exchange rate.

Improving Financial Sector

- Tempering the risk aversion of international investors towards countries in the geographical proximity of the war in Ukraine.
- Higher levels of interest rates on the new deposits compared to other countries in the region, which also implies a reduction in the loans-deposits interest rate spread.

Sustainable Public Debt

- 49.7% of GDP government debt according to EU methodology at the end of November 2023, compared to 47.2% at the end of 2022⁽⁶⁾.
- Sustainable debt management policy continued.

Romania Enjoys Robust Market Access

- Romania's funding sources are well diversified:
 - Domestic market** via RON and EUR government securities issued on the interbank market and retail government securities;
 - External market** (Eurobonds, Institutional Loans from IFIs and government agencies, RRF, PPs).
- Hard currency buffer policy, to cover up to four months of gross financing needs.
- In 2023, the government financing needs were revised from RON 160 billion to RON 205 billion, including a pre-funding of some 2024 financing needs.
- In 2024, the government financing needs are estimated at RON 181 billion, out of which around RON 86.6 billion are for the financing of the general budget deficit of 5% of GDP.

Objectives of the Debt Management Strategy

- Covering the funding needs of the central government, while minimizing medium- and long-term debt costs.
- Limiting risks for the government public debt portfolio.
- Developing the domestic market for government securities.

Strategic Guidelines During 2023–2025

- Financing mainly in local currency, with the objective of ensuring net financing (covering the budget deficit) mainly from domestic sources from 2024 onwards.
- Pursuing a smooth redemption profile (liability management operations – buyback and exchange).
- Maintaining a foreign currency buffer at a comfortable level to mitigate the refinancing risk and the liquidity risk.
- FX funding mostly in EUR and USD, taking into account the cost and risk assessment.
- Maintaining the exposure to interest rate risk under control by monitoring the share of domestic debt re-fixing within the next year and the average time to re-fix for the total portfolio.
- Using IFIs and EU funding in order to benefit from the favorable terms and conditions attached to those instruments.

(1) According to national legislation excluding temporary financing; (2) Risk indicators calculated according to national legislation, excluding loans from availabilities of the State treasury account (temporary financing); (3) ATM – average time to maturity; (4) ATR – average time to re-fixing.

- In 2024, the gross financing requirements are RON 181 billion, from RON 203 billion in 2023 driven by a lower budget deficit target. As of February 29, 2024 approximately 36% of the 2024 financing needs were covered.
- The gross financing needs will cover the budget deficit of 5% of GDP (RON 86.6 billion) and the refinancing of the public debt (RON 94.4 billion).
 - Domestic market volume of around RON 116-121 billion, with a maturity structure of approx. 15%/85% (short term vs medium and long term).
 - Domestic market issuance conducted via interbank government bond auctions and retail bond issuances.
 - International markets volume of around EUR 12-13 billion, out of which around EUR 8.5-9.5 billion via Eurobonds and private placements, EUR 2 billion are disbursements from the European Commission within the Facility of Recovery and Resilience and EUR 1.5 billion drawings from loans contracted from IFIs.
- Maintaining a constant presence in EUR and USD markets via Eurobond transactions and private placements.
- Launching the first green bond in benchmark size, based on Romania's Sovereign Green Bond Framework adopted by the Government.
- Planning the inaugural Samurai bond transaction with a green offering, to be launched in H1 for investor base diversification.

Legal Framework and Governance

- The Framework for the Issuance of Bonds Intended to Finance the Protection of the Environment and Combat Climate Change was launched in December 2023.
- The Interministerial Committee for the financing of projects/expenditures intended to protect the environment and combat climate change approved the Green Bond Framework in December 2023.

Support in the process

- The World Bank provided technical assistance to establish the green bond program.
- The Ministry of Finance appointed two internationally prestigious investment banks (Citi and HSBC) as structuring banks in order to provide external support.

Current stage

- The processes put in place for the program follow international best practices and were evaluated by S&P Global Ratings (S&P).
- S&P’s Second Party Opinion (SPO) confirms the alignment of the Framework with (ICMA)’s Green Bond Principles.
- The Framework was assessed as "medium green" based on S&P’s evaluation of eligible projects, estimated allocations to these projects, and expected impact on the protection of the environment and the fight against climate change.
- On 15 February, 2024 Romania issued its inaugural green bond on the international markets, a 12-year tranche of EUR 2 billion. The issue was extremely successful and attracted around EUR 9 billion in orders from more than 250 investors. The new issue concession was negative (-15 bps), implying a greenium of 10 bps. Around 45% of the investors were socially responsible investors (SRI) / with green-ESG mandates or known to use socially responsible investment principles/green investment principles.

■ To assure the highest level of absorption, Romania implemented the following structural measures:

- Strengthening and improving of the monitoring at the level of large infrastructure projects in order to speed up implementation
- Active promotion by the Government of the alternative use of EU funds, through similar projects
- Further reallocation among priority goals of various programmes
- Increase the administrative capacity of programming departments through the use of European Investment Bank expertise
- Extending the categories of eligible expenditures, allowing the reimbursement for expenditure already completed under the approved projects
- Phasing of projects between the 2007–2013 and the 2014–2020 programming periods

Note: The final absorption rate can be calculated after the acceptance by the EC of the final documents for closure, that were submitted by the Member States up to March 31, 2017.

- **Cohesion funds:** reducing disparities between the various regions and the lags of the least-favoured regions;
- During 2014–2020 Romania has additional available financing of approx. EUR 26 bn, under the **Common Agricultural Policy**;
- As of December 2023, the total amounts received from the European Commission, pre-financing and reimbursements related to the operational programs financed by the ESIF and Fund for European Aid to the Most Deprived (FEAD), are at approx. EUR 32.1 bn (31.7 bn ESIF and 0.46 bn FEAD), which means 90% of the EU allocation for these programs (about EUR 35.7 bn).

As of December 2023, Romania ranked 4th among the 27 Member States, in absolute values of EU funds received. The contracting rate of 167% creates a prerequisite for an increase in the absorption rate in the upcoming period.

Note: The allocations for 2014-2020 OP's were modified according to the last versions of the approved operational programmes. Consequently, some percentages have been diminished.

* The OP for SME's Initiative was included in the OP Regional by EC approval from 16.10.2018.

- The **EU Multiannual Financial Framework 2021-2027 (“MFF”)**, along with the recovery instrument **Next Generation EU (“NGEU”)** are expected to play a central role in Romania’s economic recovery.

MFF 2021-2027 ⁽¹⁾		Next Generation EU (NGEU) ⁽¹⁾	
Cohesion Policy*	EUR 29.2 bn	Recovery and Resilience Facility (RRF)	EUR 29.2 bn: (EUR 14.2 bn in form of grants, EUR 14.9 bn in form of loans)
Common Agricultural Policy	EUR 20.7 bn	REACT-EU 2021/2022	EUR 1.5 bn (EUR 1.3 bn / 0.2 bn)
Just Transition Fund (EU Green Deal)	EUR 0.9 bn*	Just Transition Fund	EUR 1.2 bn (p)
		European Agricultural Fund for Rural Development	EUR 0.7 bn
Total MFF	EUR 49.9 bn	Total NGEU	EUR 32.6 bn
Total allocated EU Funds		~ EUR 82.5 bn (p)**	

- The **NGEU amount** represents 4%⁽²⁾ of the total value of this fund, Romania receiving the **5th highest allocation of all EU member states**, taking into account the analysis made at the moment of launching the Next Generation EU through the **Recovery and Resilience Facility (RRF)**
 - In 2021 Romania received a pre-financing amount of 13% from the Recovery and Resilience Facility / RRF of EUR 1.851.159.668, from the grant RRP allocation and on January 13th, 2022 Romania received a pre-financing of EUR 1.942.479.890, from the loan RRP’s allocation.
 - Romania aims to access the full RRF allocation of 29.2 billion euro both on grants and loans.
 - Romania has received, so far, amounts from two payments requests, as follows:
 - ✓ Payment request no 1: On October 27, 2022, the European Commission, following the positive assessment, transferred to the National Bank accounts EUR 2.56 billion EUR (grant component approx. 1.77 billion EUR and the loan component – 0.78 billion EUR).
 - ✓ Payment request no 2: On 29th September, the European Commission, following the positive assessment, transferred to the National Bank accounts EUR 2.76 billion EUR (grant component approx. 1.87 billion EUR and the loan component – 0.89 billion EUR).
 - Throughout 2023, Romania concentrated its efforts to revise the NRRP and introduce the new RePower EU chapter. On December 15, 2023 Romania submitted the third payment request
 - The payment requests are approved based on a satisfactory assessment on the fulfilment of milestones and targets for each reform and investment included in the Council Implementing Decision on the approval of the assessment of the recovery and resilience plan for Romania.
 - Through the NGEU, Romania intends **to address investment needs in the private sector** by providing grants and support programs. The decision aims to ensure working capital measures, by financing:
 - investment needs; economic growth measures; companies digitalization schemes and measures to support employment growth.
- * Cohesion Policy funds are fair balanced through the Partnership Agreement (PA) in 8 regional programmes and 8 sectorial/national programmes: Sustainable Development, Transport, Health, Education and Employment, Inclusion and Social Dignity, Just Transition, Smart Growth, Digitalization and Financial Instruments and Technical Assistance.
- The PA was approved on 25 of July 2022 and all the 16 programmes were also approved in 2022. After the approval of the programmes, the European Commission started to pay the prefinancing, according to the provisions of the regulations applicable to the 2021-2027 programming period. As of December 2023, the total amounts received from EC, representing prefinancing for the programmes financed by the Cohesion Policy, are of approx. EUR 753 million which represents approx. 2.4% of the EU allocation of the programmes.

- The first payment request was disbursed by the EC on 27 October 2022 (EUR 2.56 billion from which the grant component amounted to EUR 1.772.317.380 and the loan component amounted to EUR 789.672.460).
- The second payment request was partially disbursed by the EC on September 29, 2023 (EUR 2.76 billion from which the grant component amounted to approx. EUR 1.87 billion and the loan component amounted to approx. EUR 0.89 billion). 51 milestones and targets were included in this payment request.
- The EC has sent two Observation Letters requesting further clarifications on how certain milestones and targets are met. Following the centralization of the information received from the Reform/Investment Coordinators, MIEP in its capacity as national coordinator sent to EC the reply to the Observation Letters among with all the relevant supporting documents to the justifications provided.
- On 21 September 2023, Romania received from the EC the decision regarding the authorization of the payment of the second instalment of non-refundable financial assistance component and refundable financial assistance component. Following its assessment, the Commission considered that 49 out of 51 milestones and relevant targets related to payment request no. 2 were satisfactorily fulfilled. Based on the justification provided in the payment request and the observations submitted by Romania, the EC considered that milestone 129 and milestone 133 have not been satisfactorily fulfilled. Pursuant to Article 24(6) of Regulation (EU) 2021/241, the payment of the second instalment of refundable financial assistance has been partially suspended with the amount of EUR 53.364.833. Following the partially positive assessment of Romania's payment request, in accordance with Article 24 paragraph (5) of Regulation (EU) 2021/241, the payment of the financial contribution related to the second instalment for the non-refundable financial assistance component was authorized in the amount of EUR 2.147.491.242 and for refundable financial assistance component was authorized the amount of EUR 1.026.833.397. After deducting the pre-financing, the amount related to Payment Request no. 2 is EUR 2.761.662.436 (EUR1.868.317.381 related to the non-refundable financial assistance component and EUR 893.345.055 related to the refundable financial assistance component).
- If the two milestones will be satisfactorily fulfilled within a period of 6 months from the submitted of the Letter of partial suspension, the EC will proceed to initiate the procedure regarding the payment of the amounts related to the two, according to Art. 24 paragraph (8) of the Regulation (EU) no. 241/2021 241 of the European Parliament and of the Council of February 12, 2021 establishing the Recovery and Resilience Mechanism, with subsequent amendments and additions.
- In the context of the current geopolitical crisis caused by the war in Ukraine, as well as following the negative revision of EUR 2.11 billion of the non-reimbursable financial support for Romania, the possibility of adjusting the National Recovery and Resilience Plan (NRRP) has emerged. On 27 February 2023, Regulation (EU) 2023/435 was published amending Regulation (EU) 2021/241 as regards the chapters on EU-PRSPs in the Recovery and Resilience Plans and amending Regulations (EU) Nos. At the same time, the European Commission presented the Communication entitled Guidance on Recovery and Resilience Plan in the context of REPowerEU (C2023/876 - Guidance on Recovery and Resilience Plan in the context of RepowerEU).The adjustment of the NRRP in line with the provisions of Regulation (EU) 2021/241 establishing the Recovery and Resilience Mechanism, as amended and supplemented, was a complex process completed with the formal approval of the proposal for the adjustment of the NRRP and the inclusion of the new chapter REPowerEU in December 2023, and the issuance of the Council Implementing Decision amending the Implementing Decision of 3 November 2021 approving the assessment of Romania's Recovery and Resilience Plan.
- In this context, payment request No 3, conditional on the completion of the adjustment of the plan, was sent to the European Commission on December 15, 2023, and contains 74 milestones and targets and currently it is in the assessment process at the EC level.
