1.	Romania's Profile.....	1
2.	Romania's Solid Economic Growth.....	3
3.	Sustainable Fiscal Policy and Budget Performance.....	7
4.	Public Debt at Sustainable Levels.....	13
5.	Improved EU Funds Absorption.....	19

Romania's Profile

Key Features of Romania's Credit Profile

Strong Macroeconomic Framework

- Romania had one of the highest growth rates in the EU during the last decade: the average GDP growth between 2004 and 2016 was 3.4% and during 2013-2016 was 3.8%.
- After joining the EU, real convergence, expressed in GDP per capita in PPS, of EU average, was significantly improved from 39% in 2006 to 57% in 2015.
- In 2016 real GDP growth was the highest in the EU, at 4.8% driven by:
 - On the demand side: private consumption of households (+7.4% YoY) and collective final consumption expenditure of General Government (+4.7% YoY);
 - On the supply side: all sectors except agriculture contributed to GDP growth, led by information and communication (+14.2% YoY), wholesale and retail (+10.9% YoY) and professional, scientific and technical activities (+8.0% YoY).
- The forecasted growth for 2017 is 5.2%.

Well capitalized and liquid banking sector

- Comfortably high levels of provisioning for NPLs. NPL ratio⁽²⁾ showed a sustained downward trend (21.5% in Sep 2014 to 11.0% in Jul 2016 and 9.8% in Jan 2017).
- No public funds used to bail out local banks.
- Very well capitalized banking sector, with an average total capital (solvency) ratio of 18.8% as of Sep 2016.
- Stable exchange rate.

Improving financial sector

- FDI increased by 18% in 2016.
- There is a constant decrease in the amount of foreign currency denominated deposits and loans.

Low Public Debt

- Public Debt to GDP ratio of 37.5% at end of February 2017, and 37.6% as of year-end 2016 (Eurostat, ESA methodology).
- 2010 – 2015 CAGR⁽²⁾ for public debt of 5.1%.
- Prudent debt management policy, aimed at continued stability.
- Investment grade ratings from all major credit rating agencies - BBB- from S&P and Fitch, Baa3 from Moody's (positive outlook) and BBB from JCRA.

Notes: (1) Full category names as per the Romanian National Institute of Statistics are "Trade, hotel and restaurants, transport and communications" and "Agriculture, forestry and fishing" respectively.

(2) Under the EBA Methodology. The same observation applies to data under the national methodology.

(3) CAGR – compound annual growth rate.

Stable and Resilient to External Risks

Greece

- Limited external trade exposure – Greece ranks below top 15 export destinations
- Moderate share of banks with Greek capital: Market share (by assets) of Greek banks' subsidiaries reduced from 12.2% at the end of 2014 to 10.5% in July 2016
 - Four Greek owned subsidiaries (not branches) operate in Romania. These are fully incorporated under Romanian law and subject to National Bank supervision. All four are adequately capitalized

Migrant Crisis

- Romania is not on the main Balkan route and the effects from Middle Eastern / African immigration flows have been limited.

Oil Prices

- Since Romania is a net importer of oil⁽¹⁾, low oil prices support export competitiveness and increase purchasing power.
- A possible rise in oil prices will have a negative, but limited effect.

Pro EU and NATO

- All major political parties in Romania are officially committed to EU and NATO membership
- No extremist parties are popular in Romania
- Romania houses a permanent NATO base and is part of the US Missile Defense Shield in Eastern Europe

Russia and Ukraine

- Trade relationships with Ukraine – small share in total foreign trade (less than 1%)
- Limited dependence on gas imports from Russia, since Romania is able to cover a large share of its gas consumption from domestic sources
- Very limited Russian presence in metallurgy, iron and steel and oil refining sectors.
- No credit institutions with Russian or Ukrainian shareholding

Exposure to Brexit

- The Brexit referendum has had limited negative impact so far on Romania, the initial volatility subsiding over time
- Uncertainty about the Brexit effects still remain, but exposure to UK economy is relatively limited, compared to other EU28 Member States.

Romania's Solid Economic Growth

Romania's Economy: Macroeconomic Indicators

	2011	2012	2013	2014	2015	2016	2017	2018	2019
Macroeconomic Indicators							<i>Forecast</i>	<i>Forecast</i>	<i>Forecast</i>
Real GDP (% y-o-y)	1.1	0.6	3.5	3.1	3.9	4.8	5.2	5.5	5.7

Labor Market Indicators									
ILO unemployment rate (%)	7.2	6.8	7.1	6.8	6.8	6.0	5.9	5.8	5.7

Source: National Institute of Statistics, National Commission of Prognosis –Winter forecast 2017; (1) Preliminary estimate; (2) Estimation of National Commission for Prognosis; (3) As of May 7th 2015. 3
 Note: Budget balance (% of GDP cash and ESA2010) for the 2016-2019 period is estimated at the moment of the 2017 Budget drafting moment and is based on the 2018-2020 forecasts.

- The economic model applied by the Government starting with 2017 is aimed at improving the business environment and the living standards.
 - For the 2017-2020 period is envisioned an annual average of economic growth of 5.2%.
 - GDP per capita in PPS (Purchasing Power Standard) is expected to reach the threshold of EU 28 average 70% until 2020.
 - The growth of the investments (gross fixed capital formation) will complement the growth, ensuring the sustainability of the economic growth.
 - The current account deficit will remain slightly above 2% of GDP in 2017 and the general consolidated budget deficit is expected to remain below the 3% threshold of the SGP, while the multiplying effect of the European funds and investments will intensify.

Economic Growth Supported by Domestic Demand

Romania is one of the fastest growing economies in the EU...

Labour Market Conditions Supportive of Long-Term Growth

- Romanian labor costs per hour are among the most competitive in the EU
- Highly educated workforce: #54 / #187 in 2013 according to the United Nations Education Index⁽¹⁾
- Romania's unemployment rate remains substantially lower than the EU28 average
 - The unemployment rate in 2016 was 6.0%⁽²⁾, which was lower than in 19 of the 28 EU countries

Sustainable Fiscal Policy and Budget Performance

Revenues

- Revenues to the general consolidated budget, in the amount of RON 223.7 billion (29.5% of GDP), decreased by 4.3% in nominal terms compared to the previous year
- As compared to 2015, revenues registered increases in the collection of: profit tax (+ 11.7%), social security contributions (+ 6.3%), income and salary tax (+ 4.2%) and excise tax (+ 3.6%)
- Revenues from the collection of VAT decreased by 9.6%, as compared to the previous year, due to both the reduction of the VAT standard rate from 24% to 20% from 1 January 2016 and the adoption of a reduced VAT rate of 9% applicable for food items, from 1 June 2015

Expenditures

- The expenditure of the general consolidated budget, in an amount of RON 242 billion, decreased in nominal terms by 0.6% YoY, and by 2.3 percentage points (as a percentage of GDP)
- Personnel expenditure increased by 9.5%, as compared to the previous year, mainly influenced by salary increases in the second part of 2015 and by the increase of the minimum gross salary
- Goods and services expenditures increased by 1.2% YoY, while the expenditure for social assistance increased by 7.7% YoY
- Investment expenditure, including capital expenditure and the expenditure related to development programs amounted to RON 29.5 billion, representing 3.9% of GDP

The general consolidated budget showed a deficit of 2.41% of GDP in 2016, below the 2.75% target

The 2017 budget was built assuming a cash deficit of 2.96% of GDP (ESA deficit of 2.98% of GDP)

Macroeconomic assumptions for the 2017 Budget

Value

GDP (RON billion)	815.2
Real growth rate (%)	5.2
Average exchange rate RON/EUR	4.46
Inflation / annual average (%)	1.4
Average number of employees ('000s)	4,954
No. of unemployed persons registered as at the end of year ('000s)	387
- Rate of registered unemployment (%)	4.3
Gross average salary (RON/month)	3,131
Goods exports – growth (%)	7.3
Goods imports – growth rate (%)	8.1
Current account balance (% of GDP)	-2.3

March 2017 Budget Execution

Revenues

- Revenues to the general consolidated budget, in the amount of RON 59.5 billion (7.3% of GDP), increased by 7.1% in nominal terms compared to the same period of last year;
- As compared to the same period of 2016, revenues registered increases in the collection of: income and salary tax (+15.8%), tax on foreign trade and international transactions (+18.2%), social security contributions (+14.8%), as well as capital revenues (+12.7%);
- Revenues from the collection of VAT decreased by 9.1%, as compared to the same period of 2016, due to the reduction of the VAT standard rate from 24% to 20% from January 1st 2016, which was reflected from February 2016 and the reduction of the VAT standard rate from 20% to 19% which was reflected from February 2017.

Expenditures

- The expenditure of the general consolidated budget, in an amount of RON 58.0 billion, increased in nominal terms by 10.4% YoY compared to the same period of last year;
- Personnel expenditure increased by 16.4%, as compared to the same period of 2016, mainly influenced by salary increases in the second part of 2016;
- Goods and services expenditures decreased by 3.1% YoY, while the expenditure for social assistance increased by 9.7% YoY, as compared to the same period of last year;
- Investment expenditure, including capital expenditure and the expenditure related to development programs amounted to RON 1.7 billion, representing 0.2% of GDP.

The general consolidated budget showed a surplus of 0.19% of GDP in March 2017

Main fiscal measures considered in building the 2017 Budget

- Extending the exemption of profit tax for reinvested profit;
- Reducing the standard VAT rate from 20% to 19%;
- Reducing the excise levels for energy products;
- Eliminating the personal income tax for pensions below or equal to RON 2,000;
- Eliminating the social insurance health contributions for pensioners;
- Eliminating the 5 average gross salary ceiling for the payment of the social security contribution (CAS);
- Eliminating the tax on special constructions;
- Modifying one of the conditions to be fulfilled by the Romanian legal entities as micro-enterprises by raising the ceiling for the realized revenues at December 31st of the previous fiscal year from EUR 100,000 to EUR 500,000;
- Introducing 1% tax rate on revenues for the micro-enterprises with one or more employees and eliminating the 2% tax rate for the micro-enterprises with one employee;
- Introducing a special VAT regime for farmers.

Main social and salary increase measures considered in building the 2017 Budget

- Starting with February 1st 2017 the minimum national base salary guaranteed in payment is increased to RON 1,450 from RON 1,250;
- 15% increase of health and education personnel salaries starting with January 1st 2017;
- 20% increase for salaries of the local authorities' employees under the local administration;
- Increasing with 50% the gross salary and supplements for the personnel of public institutions which deal with shows and concerts starting with February 1st 2017;
- Increasing the level of social indemnities for pensioners from RON 400 to RON 520 starting with March 1st 2017;
- Increasing the pension point value to RON 1,000 starting with July 1st 2017;

- More friendly tax environment and lowering the tax burden to one of the lowest in the EU: introduce the Tax Nomenclature, reducing the number of taxes especially through a law eliminating 102 taxes (including the radio-TV tax, the environment stamp for used vehicles, 33 consular taxes, 13 extra judiciary taxes and many more) and facilitate online payment;
- Promote new Prevention Law, which will forbid the control bodies of the government to sanction an economic entity before an informing and prevention stage has been completed (with the exception of penal situations);
- State guarantees (80%) for National Programs for key sectors (agriculture, tourism, construction etc.), for the creation of new jobs in counties with high unemployment and for supply chain finance;
- Develop National programs for apprenticeship and traineeship financed from Operational Program Human Capital and the State Budget;
- Establish the Sovereign Development and Investment Fund (FDSI) which will aim at developing and funding profitable and sustainable investments in competitive sectors by direct involvement or together with institutional and private investors.

Public Debt at Sustainable Levels

Romania has the #4 lowest Debt / GDP ratio in the EU

Romanian Credit has shown Strong Market Performance

- Romanian yields have shown resilience during volatile periods and are still at relatively low levels while strong spread compression happened across the curve since January 2016 and after Brexit referendum
- Investment grade status by S&P, Moody's, Fitch, with positive outlook from Moody's since December 2015
- The historically low yield environment has allowed Romania to extend its average debt duration (outstanding yield curves: up to 20 years in EUR and 30 years in USD) at favorable prices

Strong resilience to Brexit effects compared to our peers...

Domestic government securities held by non-residents, %

- Holders of domestic market government securities (end February 2017)

- non-residents 16.8%
- local commercial banks 47.9%
- pension funds 15.5%

- Average participation in Eurobonds issues

- Fund managers 60-70%
- institutional investors 10-20%
- commercial and private banks 15-25%
- central banks 3-5%;

- Geographical distribution of Eurobond issuances in EUR – mostly Western European Countries (Germany and Austria around 8% for issues of 10Y and 20% for longer tenors, UK around 25% on average, France and Benelux around 10% etc); Central and Eastern European states (usually around 10%), and investors from the Middle East and Asia had an average participation of around 2-3%.

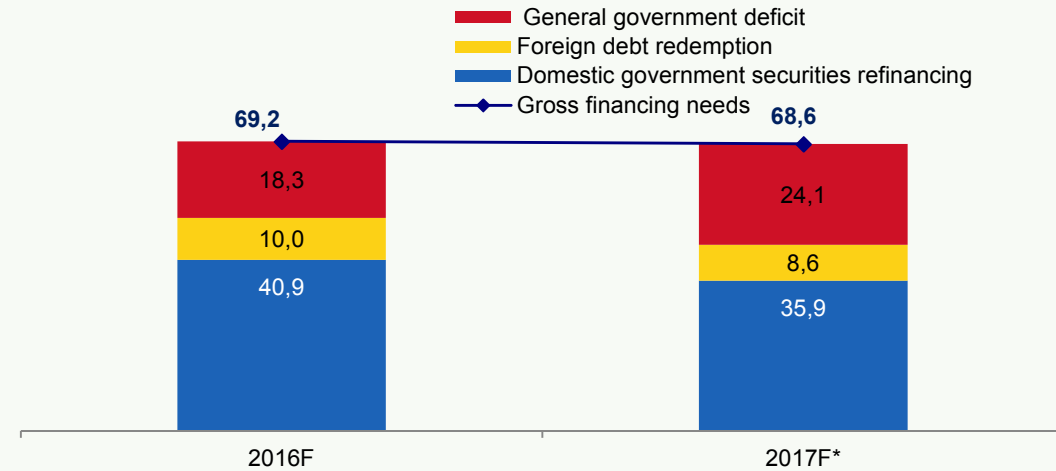

...robust market access...

- Romania's funding sources are well diversified:
 - **Domestic market via** government securities issues in RON and in EUR
 - **External market** (Eurobonds, Institutional Loans from IFIs and government agencies)
- A hard currency buffer has been built up to cover around four months of gross funding needs

...with low financing needs...

Prudent Debt Management Policy (cont'd)

...underpinned by conservative targets

	Parameters ⁽¹⁾	Levels as of Feb 2017 ⁽²⁾	Levels as of Dec 31, 2016	Indicative targeted min / max ranges (2016- 2018)
Currency Risk	■ Share of domestic currency debt, % of total	46.8	45.7	40 – 55
	■ Share of EUR debt out of total foreign-currency denominated debt, %	80.8	80.8	80 – 95
Refinancing Risk	■ Debt maturing in one year, % of total	16.0	13.0	15 – 25
	■ Local currency debt maturing in one year, % of total	28.0	22.0	20 – 30
	■ ATM ⁽³⁾ for total debt, years	5.6	5.8	5 – 7
	■ ATM ⁽³⁾ for local currency debt, years	3.7	3.8	3 – 5
Interest Rate Risk	■ Debt re-fixing in one year, % of total	19.0	16.0	15 – 25
	■ Local currency debt re-fixing in one year, % of total	27.0	20.0	20 – 30
	■ ATR ⁽⁴⁾ for total debt, years	5.7	5.9	4.5 – 6.5
	■ ATR ⁽⁴⁾ for local currency debt, years	3.7	3.8	3 – 5

Objectives of the Debt Management Strategy

- Cover funding needs of the central government and payment of obligations, while minimizing medium and long term debt costs
- Limit financial risks for the government public debt portfolio
- Develop the domestic market for government securities

Strategic Guidelines During 2016-2018

- Pursue policy of favoring local currency net financing to develop the domestic debt market and mitigate foreign currency exposure
- Smoothing redemption profile
- Foreign currency buffer to mitigate refinancing and liquidity risks
- Keep presence on the euro market, mainly in EUR and access to US dollar market or other foreign currency markets on an opportunistic basis
- External financing will be contracted mainly in EUR
- The issuance of domestic government securities in EUR can be considered only under the circumstances of reimbursement/refinancing of similar instruments
- Monitor exposure to interest rate risk by maintaining under control the share of domestic debt re-fixing within the next year and ATR for the total portfolio
- Continue the use of financing instruments offered by international financial institutions to benefit from favorable terms and conditions

Source: Ministry of Public Finance: Public Debt Bulletin February 2017.

Notes: (1) Relates to government public debt according to national legislation excluding the General Current Account.

(2) Risk indicators presented for Feb 2017 are calculated for public government debt according to national legislation, excluding loans from availabilities of the State treasury account (temporary financing), in line with the limits established in the Debt Management Strategy 2016-2018

(3) ATM – average time to maturity. (4) ATR – average time to re-fixing.

Improved EU Funds Absorption

EU Funds Absorption has Accelerated in the Past Years

Operational Program	Development Objective	Allocation 2007 - 2013	Absorption Rate			
			Dec 2014	Dec 2015	Dec 2016	Mar 31 st 2017
		EUR bn	%	%		%
RO Program⁽¹⁾	Economic, social, balanced and sustainable regional development	3.97	57	64	85	85
SOP⁽²⁾ Environment	Protect and improve the environment and living standards	4.41	42	62	79	79
SOP Transport	Modernization and development of European priority transport axes within Romania and the national transport infrastructure as a whole	4.29	57	62	77	77
SOP Increase of Economic Competitiveness	Fostering growth towards a knowledge-based economy	2.54	57	76	105	105*
SOP Human Resources Development	Open, knowledge-based society through provision of conditions facilitating human resources development	3.20	47	55	73	73
OP Administrative Capacity Development	Help increase the responsiveness of Romania's public administration and judicial system	0.21	72	89	99	99
OP Technical Assistance	Strengthening the capacity of beneficiaries to prepare and implement EU financed projects	0.17	55	81	113	113*
TOTAL		18.78**	52	63	83	83

- To assure the highest level of absorption, Romania implemented structural measures:
 - Strengthening and improving of the monitoring at the level of large infrastructure projects in order to speed up implementation
 - Active promotion by the Government of the alternative use of EU funds, through similar projects
 - Further reallocation among priority goals of various programmes
 - Increase the administrative capacity of programming departments through the use of European Investment Bank expertise
 - Extending the categories of eligible expenditures, allowing the reimbursement for expenditure already realised under the approved projects
 - Phasing of projects between the 2007 – 2013 and the 2014 – 2020 programming periods

Note: the final absorption rate can be calculated after the acceptance by the EC of the final documents for closure, that must be submitted by the Member States up to 31 March 2017.

Source: Ministry of European Funds. Abbreviations: (1) Regional Operational; (2) Sectoral Operational Program.

• Includes amount requested through top-up mechanism

** The 2007 – 2013 allocation was modified due to the amount decommitted in 2016 for SOP Human Resources Development

EU Funds Absorption under the 2014 – 2020 Programming Period

Operational Programme	Funds Allocated, EUR bn	Absorption Rate (amount requested to EC) (%)
OP Technical Assistance	0.21	0
OP Competitiveness	1.33	0
OP Human Capital (including Youth Employment Initiative: EUR 0.11 bn)	4.33	0
OP Administrative Capacity	0.55	0
OP Large Infrastructure	9.41	0
OP Regional	6.60	0
OP for SME's Initiative	0.10	0
OP's for European Territorial Cooperation	0.48	0.2
OP Aid for the Most Deprived	0.44	1
TOTAL	23.45	0.02

In accordance with EU regulations, member states can not submit applications for interim payments before the designation of authorities involved in the management system and control of these funds.

- Cohesion funds are aimed at reducing disparities between the various regions and the backwardness of the least-favoured regions
- Aside from cohesion funds, during the 2014 – 2020 period, Romania has additional available financings of approx. EUR 20bn, under the Common Agricultural Policy

Increased Focus on Controls

- **Performance Oriented:** There is a monitoring framework, including milestones and specific targets corresponding to each operational programme
 - Their completion will be verified in 2018 and 2022
- **Improving efficiency of EU funds spending:** the EC is putting in place performance reserves in amounts ranging between 5 and 7 per cent of (most of) the allocations under each priority within the operational programmes
 - The performance reserve amounts will be released subject to the achievement of the milestones set for 2018
- **Ex-ante conditionalities** to ensure the conditions for effective cohesion policy investments and predictability of national sectorial policies

The impact of EU Funds on the Romanian economy is set to increase given Romania's strides in improving EU fund absorption and the increased focus on European Commission Control

Thank you!
